Here are the step	Sure, here are the	Here are the step

Here are the steps on how to deploy a Nuxt.js 3 project on cPanel using Node.js:

1. Create a basic node app on cPanel.

2. Upload your Nuxt.js project to the folder that you specified when creating the node app.

3. In the cPanel dashboard, go to **Terminal.**

4. Run the following commands:

Code snippet

```
npm install
npm run build
npm install pm2
npx pm2 start npm --name "nuxt
```

Use code with caution. Learn more

5. Open your browser and
